PROFESSIONAL SUMMARY

Computer Science Engineering student (B.Tech, 2028) seeking a Frontend Developer internship or entry-level role. Skilled in building responsive, interactive web applications with HTML5, CSS3, JavaScript, Bootstrap and React fundamentals, with a focus on clean UI, DOM manipulation, form validation and user-friendly web experiences.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6), React JS, Bootstrap, Responsive Web Design, DOM Manipulation, Event Handling, Form Validation, Local Storage
Programming Languages: Java, C++, Python
Tools: Git, GitHub, VS Code

PROJECTS

NestNova - Property Rental Website | HTML5, CSS3, Bootstrap, JavaScript

- Built a responsive property rental website where users browse rental listings through a clean, easy-to-use interface.
- Added JavaScript category filtering that dynamically updates the listings shown based on the selected category.
- Designed a favorites feature with DOM manipulation and event listeners: add/remove properties, heart-icon state changes and confirmation alerts.
- Created reusable Bootstrap property cards and navigation components, keeping the layout adaptable to all screen sizes with minimal custom CSS.

BiteBox - Online Food Delivery Website | HTML5, CSS3, JavaScript

- Built a 6-page food delivery website covering home, menu, cart, deals, login and signup.
- Organized code into separate HTML, CSS, JavaScript, image and media files for easier maintenance.
- Added JavaScript interactions to streamline menu browsing and food ordering.

ChaloChale - Travel Website | HTML5, CSS3, JavaScript, Bootstrap

- Engineered a multi-page travel website with 6 sections: destinations, packages, booking, contact, login and signup.
- Applied Bootstrap components and grid layouts to keep the interface consistent across all pages and screen sizes.
- Integrated JavaScript interactions to improve user engagement and usability.

EDUCATION

B.Tech in Computer Science Engineering - Vishwakarma University, Pune | 2024 - 2028
Higher Secondary Certificate (12th) - R.C.F. Junior College, Alibag | 2023 - 2024
Secondary School Certificate (10th) - S.T. Ignatius High School, Mumbai | 2021 - 2022

CERTIFICATIONS

- React JS Certificate Program - NASSCOM (Feb 2026)
- Web Development - IT Vedant (Aug 2026) | Git and GitHub - IT Vedant (Jul 2026)
- Introduction to Software Engineering - IBM (Aug 2026)
- Gemini Certified Student - Google for Education (Aug 2026)

ACHIEVEMENTS

- Completed the Augmented & Virtual Reality Acceleration Bootcamp, FutureSkills PRIME, C-DAC Pune - scored 88/100 (Feb 2026)
